¹The asset allocation weights depicted above represent the neutral allocations for the fund and may differ from the current allocation. The neutral allocation may comprise a combination of investments in equities, fixed income securities, securities that are designed to track a market index or other securities. Canada Life Investment Management Ltd., the portfolio manager of the fund, has the discretion to change the allocation without prior notice. ²Effective holdings of the fund are held either directly, or through an underlying mutual fund. Asset allocations reflected are as a percentage of the fund's net asset value. Individual securities held by ETFs are not reflected in the Fund's Top Holdings listings. For money market fund reports: The current yield is an annualized historical yield based on the seven-day period ended on the date noted above and does not represent an actual one-year return. For information on the fund or any underlying Counsel funds, please read the Fund Facts, Simplified Prospectus and/or other reporting documents before investing, available at www.counselportfolios.ca. All third-party marks are used with permission.

Note: Occasionally, a negative value may be reported for Cash holdings that reflects the sale of securities and/or redemption transactions that have not settled at month end.

Distribution of the chart, history standard and short-term reports are not permitted without including the fund profile long-term report. Commissions, trailing commissions, management fees, and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you. Past performance may not be repeated. Reports produced using this website are for information purposes only.
